
Lesson 7: Unit Review

Algebra 2 B Unit 5: Matrices

P

Objective: Review concepts in order to prepare for the Unit Test

Materials: Course Materials are not available as of this time as this User has not been assigned to any Courses. Please check back once the User has been placed into a Course.

Matrices

In this lesson, you will pull all the information together from this unit in order to prepare for the unit test in the next lesson. You should be able to answer the questions listed below before taking the test.

- How is a matrix like a table?
- How can you use matrices to model and solve real-world problems?
- How can you use matrices to perform transformations of geometric figures in the plane?

Objective

- Review concepts in order to prepare for the Unit Test

Study Tips

The suggestions below will help you prepare for the unit test following this lesson.

- Review all of the previous assessments you've completed in this unit. Make sure you understand any errors you may have made and ensure that you know the correct approach to solve those problems.
- Revisit online tutorials and movies that you feel would help expand your learning.
- Look at the key words and vocabulary terms that were introduced in this unit.
- Pay close attention to the objectives from each lesson and be sure that you are comfortable with these concepts and skills.

Add your final thoughts to the discussion using the link in Lesson 1. You may choose to check the discussion rubric to be certain you completed all the requirements. Click on the links below to view the Discussion Guidelines and Rubric.
