

**ELA 11 Semester B Review**

# Semester Review and Reflect

## Review

Today you will review all of the topics that you have learned about during the semester.

Read through the list of topics found in each unit. The lists can be found in the Review and Reflect sections found at the end of the units. Make sure that you feel confident about each topic before taking the semester test. If there are any topics that you have forgotten or think that you need to practice, go back and review those lessons now.

## Reflect

Are you ready for the semester's cumulative exam, or do you need to study more?

Write a reflection about your learning during the semester. Your reflection should be at least five sentences in length. Use the following questions as a guide.

- What skills or concepts were hard for you?
- What strategies or activities helped you to better understand a concept?
- What do you think you may need more practice with?
- What questions would you like to ask now that you have a better understanding of what you will find on the semester exam?

## Study Tips

Are there any topics that you need to go back and review? Use the following tips while studying:

- Review your results on previous unit assessments from this semester.
- Look through the lists of major concepts found in the Review and Reflect sections of the units.
- Write a summary of the major concepts from each unit of the semester. Place a star next to each when you feel you have mastered it.
- Review the concepts that may need a bit more practice using strategies such as summarizing, making flashcards to test yourself, use key vocabulary to write sentences, working problems or activities, teaching or explaining a concept to a friend or family member, etc.
- As you review each concept and become more comfortable with it, place a star next to it and move on to the next until you are ready to complete the semester exam.
